AGENDA ITEM/MAYOR AND COUNCIL ACTION	STAFF ACTION
<b>1. Call to the Audience</b> (see item 2)	
<b>2. Broadway/Congress - One-Way/Two-Way</b> Jim Glock, Director of the Tucson Department of Transportation, made a presentation on the traffic circulation opportunities and constraints associated with the potential conversion of Broadway and Congress Street from one-way to two-way travel. It was recommended that this item be brought before the full Mayor and Council at their February 6, 2007 Study Session for further discussion/consideration (but without a recommendation for a final decision). Several members of the audience spoke about this issue, with some in favor of this conversion and some in opposition to this change. A copy of the presentation can be found at: <a href="#">Broadway/Congress Conversion - January 18, 2007</a>	Update received, no action taken.
<b>3. I-10 Widening Project</b> Greg Gentsch, District Engineer for the Arizona Department of Transportation's Tucson District made a presentation on ADOT's I-10 Widening Construction project. His presentation covered the project's schedule for temporary and permanent closures of the freeway ramps between Prince Road and 29 <sup>th</sup> Street, the plans for traffic movement once the ramps are permanently closed, how ADOT will monitor traffic throughout the construction period, emergency response and traffic alert procedures, suggested commuting alternatives, and public outreach and contact information. A copy of their presentation can be found at: <a href="#">I-10 Widening: Prince Rd to 29th Street</a>	Update received, no action taken.
